

Danny Garcia is a humble man who desires to lift up Jesus Christ and minister to the suffering people of the world. Danny's commitment to being a servant of the Lord and the world's peoples are reflected in his past journeys which have taken him over 24,000 miles on foot to minister to people across the globe and raise funds to help alleviate their suffering.

Danny and his team helped us minister to people at one of our our Prayer Stations in New York City. Danny and the Global Walk team will be wearing the red "Prayer Changes Things" aprons that we use at our Prayer Stations during their African Walk. These aprons help people know we care for them and are willing to take the time to stop along the way to hear of their needs, pray with them and minister to them. Bringing people to Jesus Christ and showing them God loves them and answers prayer is one of the most important aspects of his walk across the world.

I believe in the Global Walk Foundation and I know the special African people they meet along the thousands of miles from South Africa to Sudan will see the goodness of the Lord as Danny and his team reach out in compassion to them.

Please support Danny with your prayers and substance as he "goes into all the world ..."
walking, praying, ministering and raising awareness and support for the needy people of the world.

Yours for Christ,

Tom Kiser
Director of Urban Ministries
Hope International Missions, NYC
